Wood Science and Technology

"Wood Science and Technology" is dealing with research contributions and reviews covering the entire field of wood and pulp. Among these subjects are wood anatomy and ultrastructure, all aspects of the biology of wood such as the cytology of cambium, xylem and phloem, tree physiology and the microbiological degradation of wood, the chemistry of wood and bark, and wood physics. Problems related to wood technology include combustion, drying, and impregnation of wood, its machining, gluing, and finishing, timber mechanics and rheology, and the conversion of wood into pulp.
Manuscripts are to be submitted to the Editors, the Associate Editor, or the members of the Editorial Board.

Editors:

Prof. Dr. **H. Schulz,** Institut für Holzforschung der Universität München, Winzererstr. 45, D-8000 München 40, Germany
Prof. Dr. **W. Liese,** Institut für Holzbiologie und Holzschutz der Bundesforschungsanstalt für Forst- u. Holzwirtschaft, Leuschnerstr. 91, D-2050 Hamburg 80, Germany
Prof. **T. E. Timell,** State University College of Environmental Science and Forestry, Syracuse, New York 13210, USA

Associate Editor:

K. A. Sorg, Institut für Holzforschung der Universität München, Winzererstr. 45, D-8000 München 40, Germany

Copyright: By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform, electronic data bases, video disk, or any other reproductions of similar nature, and translations.
Photographic reproduction, microform, electronic data bases, video disk, or any other reproduction of text, figures, or tables from this journal is prohibited without permission obtained from the publisher.
The use of general descriptive names, trade names, trade marks, etc., in this publication, even if the former are not specifically identified, is not to be interpreted as exempt from the relevant protective laws and regulations.
Special Regulations for the USA. Photocopies may be made for personal or internal use beyond that permitted by Section 107 or 108 of the U.S. Copyright Law, provided a fee is paid. This fee is $ 0.20 per page or a minimum of $ 1.00 if an article consists of less than five pages. Please pay this fee to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0042-9929, volume, and first and last page numbers of each article copied. – The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for such copying.
Other Regulations: Authors of this journal can benefit from library and photocopy fees collected by VG WORT if certain conditions are met. If an author lives in the Federal Republic of Germany or in West Berlin it is recommended that he contacts Verwertungsgesellschaft WORT, Abteilung Wissenschaft, Goethestr. 49, D-8000 München 2, for detailed information.
